

The UK's No.1
disinfectant wipe
in the NHS

Protecting your customer's health at home

Trusted by healthcare professionals

GAMA Healthcare's aim is to help prevent
infections to save and improve lives.

Our story

GAMA Healthcare is at the forefront of Infection Prevention and Control technology

GAMA Healthcare was founded in 2004 to protect people from infection. All our products are designed to help reduce infections and protect people in healthcare settings and at home.

We believe innovation is vital, and are continuing to develop products that support environmental cleaning and disinfection, personal hygiene and wellbeing.

Our market-leading surface care products help stop the spread of pathogens, whilst our comprehensive range of skin care products ensure patient comfort.

clinell®

Clinell products provide the most effective solutions for surface cleaning and disinfection, combining innovative technology with ease of use.

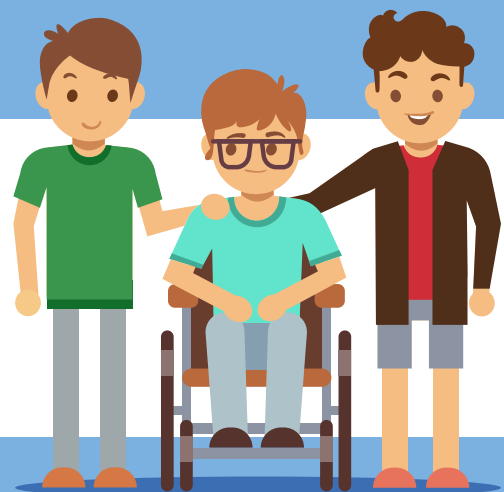

carell®

Carell offers gentle, dermatologically-tested products ideal for every aspect of patient care, from bed baths to cleansing.

CONTIPLAN⁺

Contiplan cleanses, moisturises and protects in one easy step, soothing fragile and sensitive skin.

Infection prevention means caring for others. Together we can keep loved ones safe and leave a positive impact on our world.

UNIVERSAL RANGE

"My daughter tested positive for Covid-19. We used these for cleaning all the contact surfaces. She would also use them to clean the shared bathroom after use and to open doors with on the way. Out of our family of 5 she was the only one who was positive. They certainly do their job!"

Large, multi-purpose wipes and spray for easy cleaning and disinfection of surfaces

Clean and disinfect in one step

- ✓ Proven to kill 99.99% of germs including Norovirus, flu virus and MRSA
- ✓ Fast acting, kills germs from as little as 10 seconds
- ✓ Alcohol and bleach free
- ✓ Number 1 hospital brand
- ✓ Dermatologically tested, skin friendly formula
- ✓ The safest choice for you and your family
- ✓ Safe for use around babies and pets

A close-up photograph showing a person's hand holding a white, textured wipe over another person's leg. The person whose leg is being wiped is lying in a bed with white linens. The background is softly blurred, focusing attention on the hand and the wipe.

BEDBATH RANGE

"These wipes make life a lot easier when someone who is bedbound needs 'freshening up'. No bowls of water sloshing around or soggy bedclothes. They do not dry the skin and are ideal for both a hands and face wash or an all over 'bath'."

Rinse-free, cleansing and moisturising wipes, gloves and shampoo cap

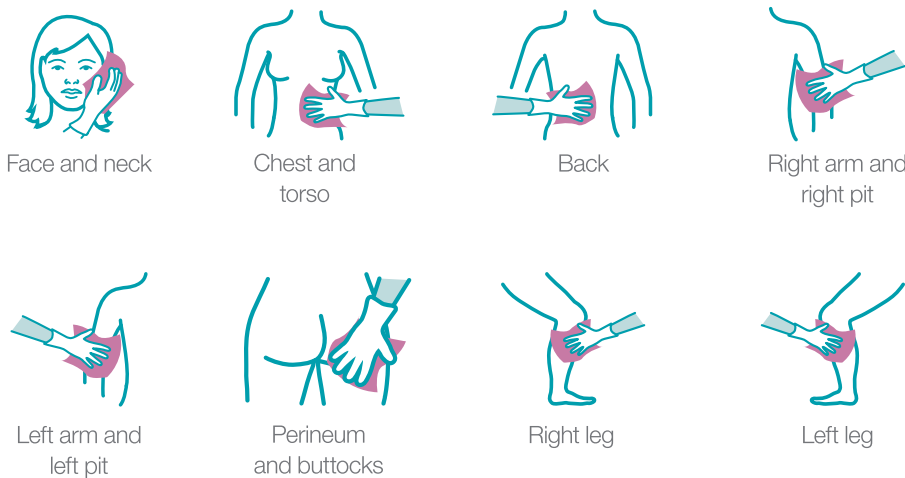

Providing a full-body bathing solution

- ✓ Safer and quicker than traditional bed bathing methods
- ✓ Improves dignity for the patient
- ✓ Large, thick wipes, bath mitts and shampoo caps
- ✓ Quick drying
- ✓ Single use to reduce cross-contamination
- ✓ Can be heated in the microwave for a more pleasant experience
- ✓ Dermatologically tested
- ✓ Alcohol and lanolin free
- ✓ Contains a skin neutral pH formula with aloe vera and moisturisers to promote healthy, soft skin

For use by:

- Carers
- Healthcare professionals
- Those who find access to baths and showers difficult
- Campers, travellers
- Families out and about

CONTIPLAN⁺[®]

Incontinence cloths with barrier cream

"Wow! What a find... I have been suffering from soreness due to incontinence. These are without doubt, the best wipes I have found. Worth every penny as the quality is excellent and they are soothing. I also see that they can be used on different parts of the body which is a bonus."

Cleanses, moisturises and protects in one easy cloth

3 in 1 continence care

- ✓ Cleanses, moisturises and protects
- ✓ Helps reduce incidence of incontinence-associated dermatitis (IAD) and pressure ulcers
- ✓ Protects fragile skin
- ✓ Trusted by healthcare professionals
- ✓ Large, thick cloths
- ✓ Available in a variety of convenient pack sizes
- ✓ Contains natural plant extracts of chamomile and witch hazel to soothe and help restore skin

Advantages

 **Barrier protection**
Dimethicone barrier protects against prolonged exposure to faeces and urine to aid natural healing.

 **Long lasting**
Barrier function provides long-lasting protection against prolonged exposure to faeces and urine.

 **Cleansing**
Mild, soap-free formula cleans away faeces and urine effectively in one step, reducing the amount of skin handling. The cloths have a gentle scent to help with odours, allowing the patient to feel fresher and more comfortable.

 **Skin-friendly**
Dermatologically tested with a skin-neutral pH.

 **Natural plant extracts**
Includes extracts of witch hazel to help promote healthy skin.

 **Moisturising**
Added moisturisers help prevent dry skin, which is common with soap and water.

 **Soothing**
Ultra-soft cloths with extracts of chamomile help to soothe irritated skin.

For use by:

- Carers
- Healthcare professionals
- Incontinence sufferers
- Loved ones with disabilities and dementia, both young and old
- Bowel and Bladder Health Sufferers
- People needing to protect soft and fragile skin

Planogram positioning: To be found in the incontinence section next to incontinence pads.

CHLORHEXIDINE BATHING

"These have become my favourite product of all time. I needed something to cleanse the skin of bacteria as well as leave a coating of antibac to protect the surrounding area from infection. Not only did it do this and clear her skin it was also gentle on her skin to not give her any reactions"

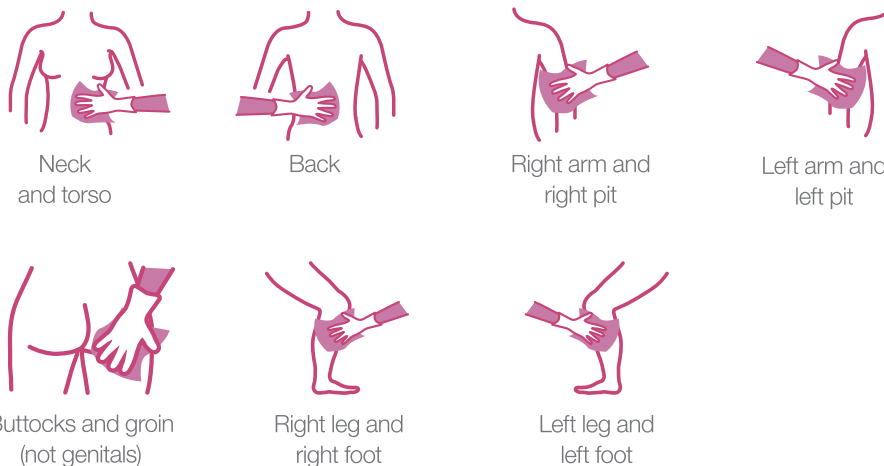

Chlorhexidine based antiseptic body cloths, gloves and shampoo caps

Cleanse, disinfect and moisturise in one step

- ✓ Ideal antimicrobial body cleansing solution
- ✓ Ideal for pre-admission patient washing
- ✓ Safe, quick and easy to use
- ✓ Trusted by healthcare professionals
- ✓ Rinse-free, feel fresh and comfortable
- ✓ Chlorhexidine based formula gives residual, long-lasting protection
- ✓ Can be warmed in the microwave

Where to use:

Effective against:
